

Hetsco appoints General Manager as key focus of operational excellence and new business ventures.

Franklin, Indiana- Scott Gill has joined Hetsco operations team as General Manager. Scott brings 20 + years of operational excellence. This includes engineering, product development, operational management, business development, sales/marketing & M&A. Scott has spent a significant amount of his career in providing systems solutions to the HVAC & power management markets in residential, Industrial, mobile, military, data center and telecom applications. Scott's previous leadership roles in operational management and business development will be very beneficial as Hetsco continues to expand its growth Initiatives.
